My son joined Gymboree classes when he started crawling (6 months) until now - when he starts walking (12 months). Bubbles & parachute are his favorite activities at Gymboree. At home, when he misses Gymboree classes, he wants parents to use the blanket as a parachute. We love Gymboree classes!

## KY THU

Age: 7 months. Class: Play & Learn 2

It is a surpris for me to know that there is a wonderful playground like Gymboree in Ho Chi Minh City.

With Gymboree, my baby can start playing & learning from very early stage in her life.

Not only Sori (Ky Thu), but also my husband & I are always looking forward to Saturday to enjoy classes @ Gymboree!

Ngo Thi Tra My, Ky Thu's Mom.

## BACH LUU.

He is attending Play and Learn 4 class now.

Bach joined Gymboree class from 14.5 months old until now. Bach really enjoys and is very active in the class. At home, when Mommy sings: "Clean up clean

up, everybody everywhere..." then he knows how to clean up all the toys on the floor and put into the basket.

When he misses the class, he points his finger at the back of his hand (which usually has his Gymbo name tag) and say: "Bo", means Gymbo :)
